

# MBCI Red Gym Refresh Update

April 24, 2026

## What's New? One Month Done!

We are grateful that the first four weeks of construction have gone as smoothly as we could have hoped for. Learning has continued without interruption and our contractors have done an excellent job of sealing off the construction site in a way that minimizes noise and separates us from the dust and demolition taking place.

- 80% of demolition is now complete including the change rooms, stage, and offices
- Existing roof joists are being reinforced
- Openings for the downstairs team room and storage room have been constructed
- Removal of the existing gym floor has begun
- Work is underway on the plumbing and entrances in the new change rooms
- The Red Gym bleachers have been moved over to the Blue Gym and will be installed at the end of the school year

## What's Next?

The next steps are a gradual shift from demolition to construction:

- Continued removal of the existing gym floor
- Re-roofing
- Continued work on the new change rooms including drywall and taping
- Assembly of the new South End feature wall
- The new gym floor will be delivered and begin acclimatizing

## The Goal!

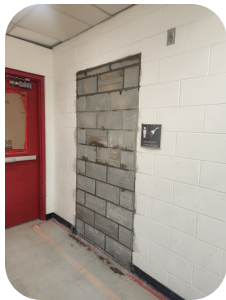

We continue to be on track to complete construction prior to the start of classes in September of 2026.

## Photo Gallery

After almost a month, the Red Gym is well underway with the construction and renovations. Sometimes we can hear a bit of noise from all of the hard work being done inside, but it doesn't distract us from our studies. With the Red Gym being under construction it makes it harder to get gym time because there is now only one gym and it alternates everyday between middle and high school. For the mornings, you have to walk in the office or library doors now, making it a bit longer of a walk. We will adapt though and we know that even with these little hurdles right now that might make it a bit more challenging, that the ending will be great and it will all be worth it in the end. I'm looking forward to all the improvements and new equipment that will be added in this renovation.
